| Patient Name: | Katalina Perrelli | Date of Birth: | 1985-12-23 |
| MRN: | 493261453 | Report Date: | 2026-02-03 |
| Provider: | Steven Magee | Facility: | Canvas Sleep Medicine Center |

REASON FOR REFERRAL

Excessive daytime sleepiness, reported snoring

HISTORY AND EXAMINATION

Patient reports difficulty staying awake during the day, particularly in the afternoon. Partner reports loud snoring with witnessed apneic episodes. Patient denies morning headaches. BMI: 28.5. Mallampati score: III. Neck circumference: 42 cm.

ASSESSMENT

Clinical presentation consistent with obstructive sleep apnea syndrome. Recommend in-laboratory polysomnography for definitive diagnosis.

RECOMMENDATIONS

1. Schedule in-laboratory polysomnography
2. Sleep hygiene counseling provided
3. Weight loss encouraged
4. Follow-up after sleep study completion
